

Welcome

Moura State High school provides a vital service for the small and close-knit communities of Moura, Banana, Theodore and Bauhinia. Our school is a reflection of our community. It is small, close-knit and welcoming.

As Principal I embrace the strengths and values of these communities and welcome all students and their families into our school community.

My primary aim is to provide Educational services for all students, irrespective of their needs, so that students can attend school up to the end of year 12 and therefore families can stay together. I promote and support families with their childrens needs so that they can stay together.

My wish for students is that this is a happy place, where students enjoy their schooling and of course feel safe.

For parents I feel we have a partnership and so welcome parents into the school. I encourage parents not to sit back and worry or wonder but come in and meet with me or staff.

Thank you for choosing to consider Moura State High School as your school. I value all our students and welcome all students and their families to our school.

Alan Campbell

Principal
